

Discoveries through Literacy

Discoveries Through Literacy is a summer program that provides students with the opportunity to explore their community by partaking in high interest literacy-based field trips. A full day of group or individualized learning is planned around each experience. Prior to the trip, during the trip, and after the trip; children will participate in activities designed to meet their targeted goals, as well as fully immerse them in the given experience.

Your Literacy Specialist will consult with you to aid in the process of selecting trips appropriate for your child's age and interests.

Each **Discovery Day** is about **5 hours** in length. The whole day is designed to promote thinking and learning. The activities included in this day are designed to activate prior knowledge, encourage reflection, and address targeted goals.

Discovery Days are typically scheduled **between 9:00am to 3:00pm** dependent on your preference and the given activity's hours of operation.

Schedule your trips today!
